Instant hot water at 3 a.m. by turning faucet

Automatic gas water heater brings comfort, convenience

The nearest hot water faucet is always a source of refreshing comfort - with an automatic gas water heater in your home.

It supplies plentiful hot water any time. All you do is turn on a hot water tap for a cupful or gallons of steaming water.

Two kinds of automatic heaters

There is one type of heater called the "Automatic Storage System." It keeps a supply of steaming hot water in the boiler-always ready for use. While another, called the "Automatic Instantaneous Type," heats an endless stream of water at the turn of a faucet. No boiler needed here, for the water heats as it flows through hot coils.

James Hall was chosen from mong all the actors Hollywood offered to play opposite Miss Negri when "Hotel Imperial" was being cast. Realizing that this story offered Pola the greatest opportunity of her career, Famous Players-Lasky corporation literally went the limit" to give its star the finest supporting players that could be secured.

When the field of leading men was scanned, Hall won the assignment, despite the fact that he had appeared in only one picture and that in a light comedy role, while "Hotel Imperial" is tense drama from the opening scene to the final fadeout. That he vindicated the choice is attested by the unstinted praise he has received for his remarkable interpretation of the fugitive Hungarian office: who plays so important a part. "The simplest possible interpre tation of the text tonight," said Dr. Buigin, "is that if today you are not willing to be convinced of the divine reality of Christian ity, the supernaturalness of the Bible and the Superhumantiess of our Lord Jesus Christ, you would not be convinced if a deadman came from the grave.
